Select Options

Fitwheels makes wheels.. As many are riders, so many needs for selection and personalize of the appropriate set of wheels. We use for production the highest quality components. When you go against the client's needs, you can make it easy to adjust the wheel specifications to the customer's needs. All wheels built by fitwheels pass through a demanding process that ensures a high end of the product. Dt Swiss - Swiss manufacturer of hubs, rims and other components necessary for the construction of wheels at the highest level. The brand of this brand is known for its high quality performance and unique design. Sapim - A Belgian company specialising in the production of spokes and nipples for the production of wheels. SOUL-KOZAK - SOUL-KOZAK company provides highest quality services in CNC machining. The company was founded out of passion for designing and realizing dreams. We manufacture super-light bike components. We strive to provide our customers with only the best products which meet their expectations.
