FLAT OUT is a Polish company specializing in the production of anti-puncture inserts that guarantee reliable protection while cycling. Our inserts were designed and made in Poland, and our philosophy is based on simplicity and functionality.

FLAT-OUT BANG - Anti-puncture insert that keeps paceIf you take your cycling seriously, you know that an anti-puncture liner becomes an indispensable element of your equipment. There are plenty of options on the market to choose from, but know that there are no miracles. Each insert is a piece of polymer that is designed to ensure the stability of the tire and protect the rim. Cheap models often fail, sometimes treated on an equal footing with expansion hoses, and more expensive options often stand out only because of their colors.However, the FLAT-OUT insert is different. Designed and made in Poland, this insert has that extra something that can tip the scales in your favor on the course.

Easy installation: Installation of this insert is extremely simple, which allows for quick and convenient installation, even for beginners.

Snake Bite Protection: This insert effectively protects against the risk of catching a snake bite, increasing the durability and safety of the bike.

No sealant required: This insert is designed to require no additional sealant, eliminating the need for frequent maintenance.Minimum inner insert width of 26mm:

With a minimum inner width of 26mm, this insert ensures optimal performance for the bike.

46mm Maximum Overall Insert Width: This bike insert has an impressive maximum overall width of 46mm, making it versatile and perfect for a variety of riding conditions.

Fits 2.35" - 2.80" Tires: This bike insert is perfectly sized for tires ranging from 2.35" to 2.80" wide, ensuring optimal performance and riding comfort.
